

A white tambour door is shown installed within a light-colored wooden cabinet frame. The door is partially open, revealing its horizontal slatted construction. The surrounding cabinet walls are made of wood, and a circular vent is visible in the upper left corner. A large white text box is overlaid on the center of the image.

Tambour Door

2. Tambour Door Handle/Locker;
3. Tambour Door Tracks;

2. Tambour Door Handle/locker

Handle for 8mm*15mm slat

Handle for 8mm*15mm slat

Handle for 8mm*45mm slat

Handle for (12mm*18mm)/(12mm*25mm) slat

Inside Tracks

3. Tambour door tracks

Outside Tracks

Tambour Door

1. Tambour Door Slats

8mm*15mm Tambour slat

12mm*18mm tambour slat

12mm*25mm tambour slat

8mm*45mm 3 connected tambour slats

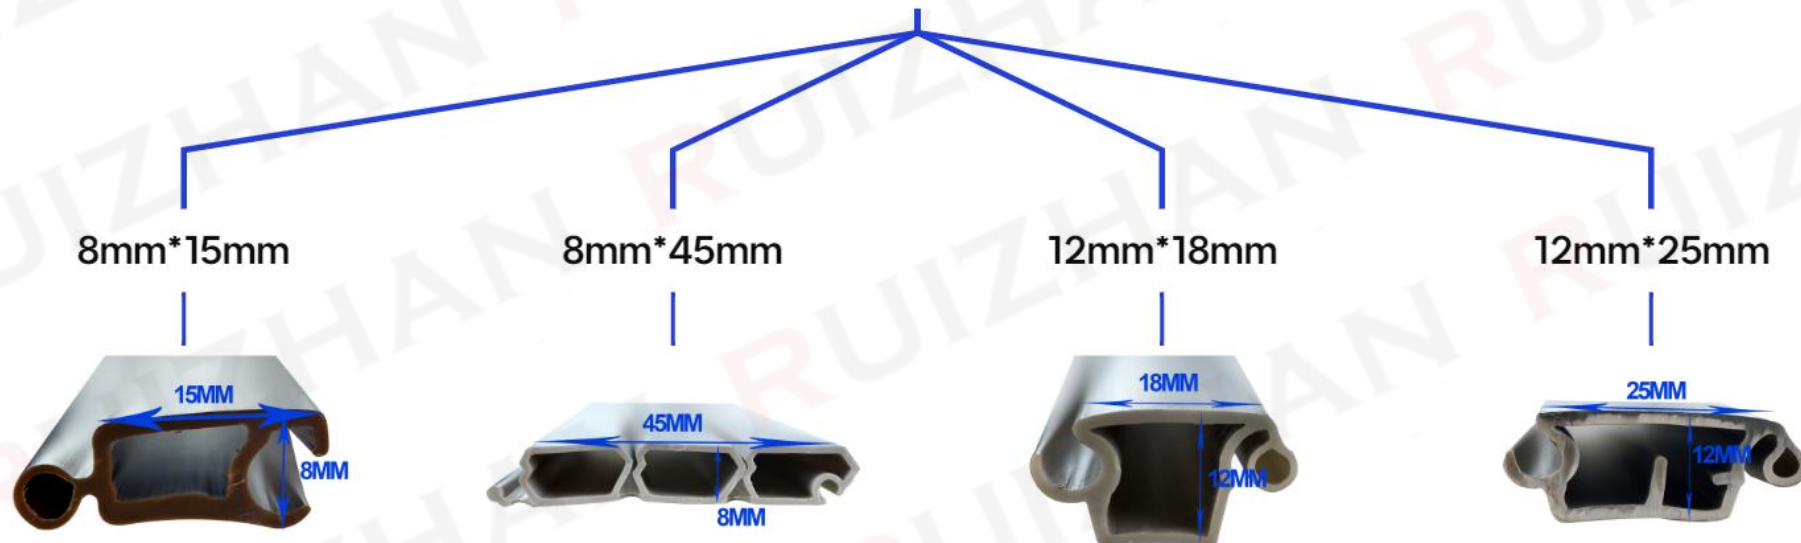

All the size, color and open style tambour door for your cabinet is intalled by the three parts, so you should know the details to assemble and install all the parts easily fit your cabinet, cupboard, campervan, RV, closet, credenza or any place you want install it.

To custom tambour door for your cabinet or anywhere you want apply it, tambour door slats is the main part to make up it. There are 4 point you need to mention:

1.slat cross section;

The cross section depends on mould we already have for regular size (slat thickness*slat surface width) , include: 8mm*15mm, 8mm*45mm 3 connect, 12mm*18mm, 12mm*25mm slat. or you could pay us mould fees for open new mould, and produce with 100 sets MOQ.

Slat cross section(thickness*surface width)

3.1 Tambour door Slats

2.slat surface color;

The surface color for slats make up the tambour door surface, you could choose our 4 regular color: white, black, gray, silver, for all size slats; and special surface: walnut color for 8mm*15mm slat; bamboo color for 12*18mm slats;

3.slat length;

The length of tambour slats depends on your cabinet's inner size: for vertical open style it depends on inner width, for Horizontally open style, it depends on inner height. The inner size info you need provide to us in the [customization parts](#).

4.slat materials;

Materials of tambour door is PVC and ABS, it depend on your demand.

3.2 Tambour door Handle&Locker

RUIZHAN

The handle's color followed shutter slats; and the size of handle matches different tambour slats as the picture shows bellow:

- 1.Handle A for 8mm thickness * 15mm surface width slat;
2. Handle B for 8mm thickness * 15mm surface width slat;

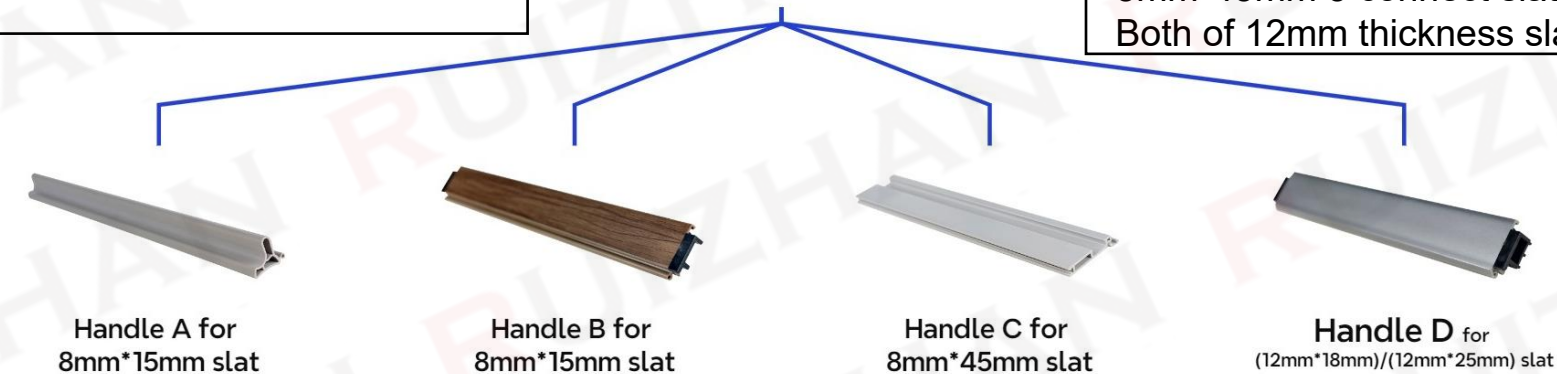

3.Handle C **Only** for 8mm thickness * 15mm surface width 3 connect slats;

4.Handle D match 12mm thickness * 18mm width slat & 12mm thickness * 18mm width slat;

We could easily know;

8mm*15mm slat could use Handle A & B;
8mm*45mm 3 connect slatc could Only use Handle C;
Both of 12mm thickness slat share Handle D;
